

RHP® Nerve Support Formula

Dear Doctor,

Your patient is considering taking RHP Nerve Support Formula for their neuropathy. It is the original formula which has been on the market for over 18 years for people, like your patient, who are suffering from neuropathy.

Nerve damage or nerve pain is often caused by a deficiency of specific vitamins. When you don't get enough of these vitamins from the foods you eat, you need to supplement your diet.

RHP Nerve Support Formula:

- Supplies the precise ingredients, which are easily assimilated by the body, that are necessary to help build and maintain healthy nerves,
- Gives lasting relief by providing nutritional support that directly targets the nerve cells of the body,
- Utilizes benfotiamine (vitamin B1) and methylcobalamin (vitamin B12), two of the most widely used ingredients to support nerves and the nervous system.

Benfotiamine

A special type of vitamin B1 is a fat-soluble version of vitamin B1. This special form of vitamin B1 can be taken orally in large dosages and it will not flush out of the body the way ordinary Thiamine (vitamin B1) does. The result is that by taking benfotiamine the blood stream levels of vitamin B1 can now be greatly increased, nutritionally supporting the body's nerves and nervous system.

Methylcobalamin

Also called methyl B12, is the form of vitamin B12 that can be directly utilized by the body and is available in the quantities nutritionally needed by the body to help support healthy nerves. Methyl B12 can be taken orally and is immediately available to the body much like injectable vitamin B12.

Small amounts of riboflavin (vitamin B2) and vitamin B6 are included as cofactors of methyl B12.

Safety:

There are no known interactions or side effects to RHP Nerve Support Formula. The ingredients are GRAS certified (Generally Regarded As Safe) and produced in a GMP certified facility.

The FDA has set no upper limits on the use and intake of vitamin B1 or vitamin B12.

Does it Work?

These are a sampling of studies which show the efficacy of the various ingredients in RHP Nerve Support Formula. (see PubMed ID Numbers: 12592403, 18473286, 9587048, 8929745, 8886748, 10219465, 1324807, 9112980, 11571671, 3568063, 8041506, 23193625, 6751736, 23193625, 27026808)

RHP Nerve Support Formula is a safe and effective option that your patient can take which will provide increased nutritional support for their nervous system.

Regards,

Robyn Held
Founder

Suggested Use:

Adults take four (4) capsules per day, two (2) with breakfast, two (2) with dinner. Best taken with meals.

Supplement Facts		Servings Per Container: 60
Serving Size: 2 Capsules		
	Amount per Serving	% Daily Value
Vitamin D3 (as Cholecalciferol)	500 IU	125%
Riboflavin (Vitamin B2)	4 mg	235%
Vitamin B6 (as Pyridoxine HCl)	4 mg	200%
Folic Acid	200 mcg	50%
Vitamin B12 (as Methylcobalamin)	2,000 mcg	33,333%
Benfotiamine	300 mg	†
† Daily Value not established.		

Other Ingredients: Gelatin (capsule), microcrystalline cellulose, dicalcium phosphate, magnesium stearate, silicon dioxide, maltodextrin and water.
